

Kitchen and Bath Design Planner  
Let's do it together!  
Step by step

## How To Measure Your Kitchen or Bath For New Cabinets

Accurate measurements of your kitchen or bath is important in designing your new cabinets. Please follow the steps listed in this kitchen and bath planner and give the information to your Cabinet Select product specialist.

### Floor Plan

You will need to accurately determine the exact dimensions of your room. Your finished floor plan should look similar to the diagram below. Make sure to indicate the precise locations of all doors, windows, hood vents, exhaust fans, gas lines, water lines, drain lines, electrical outlets, switches, light fixtures, and heat vents.

**NOTE: ALWAYS DOUBLE CHECK MEASUREMENTS.**

## How To Measure Your Kitchen & Bath For New Cabinets

Using a tape measure and graph paper, measure your room using the following steps.

### Horizontal Measurement

1. Measure from wall to wall at 36" height
2. Measure from corner to window or door opening.
3. Measure across opening from trim edge to trim edge.
4. Measure from edge of trim to far wall. Compare sum of #2, #3, and #4 measurements to step #1.
5. Mark exact location of water, drain, gas lines and electrical outlets and switches on drawing.
6. Measure from wall to wall above window and compare to #1.

### Vertical Measurement

7. Measure from floor to window sill.
8. Measure from window sill to top of window.
9. Measure from top of window to ceiling.
10. Measure from floor to ceiling – Compare to sum of #7, #8, and #9.
11. Measure from floor to water, drain, gas lines and electrical outlets and switches on drawing.

## Appliance and Fixture Information

List desired or existing appliances on drawing. Be sure to indicate outlets, wall mounted appliances and fixtures, telephone and cable locations. Also note gas line and appliance locations.

	Type	Size W x D x H	Hinge Position L/R (Facing Appliance)
